

Walk 5 Transport: Amberley to Upper Beeding

Travelling from Brighton to the start of this walk, it made sense to us to leave cars en route at the end of the walk on the A283 alongside the River Adur, where the South Downs Way crosses just north of the old cement works at Upper Beeding. There are two suitable car parks (see map below) but neither has any facilities other than parking. The postcode is **BN44 3TD**. A wide variety of refreshments are available nearby at Bramber and Steyning.

The route from Upper Beeding to Amberley is straightforward. Continue west along the A283 to Washington and Storrington after which fork left onto the B2139 along the foot of the Downs to Amberley.

Parking is free at Amberley Railway Station Car Park. The postcode for it is **BN18 9LT**. The Amberley Riverside Tearooms are conveniently nearby.

[The Amberley Riverside Tearooms](#) are a useful place for refreshment both before and after walks starting or finishing there. But their opening hours are very restricted in the winter months (after November 1) and should be checked (01798 831066). [The Bridge Inn](#) on the south side of the B2139 serves food and tea and coffee year round.
