

Walk the Road

By Kate Rusby

Think not of casting off your dreams
When the road goes on forever
All is just not as it seems
And we'll walk the road together

(Chorus)

*All the way through wind and rain
I'll never deceive my heart again
Hand in hand, across the land
We'll walk the road together*

Think not of failing, carry on
When the road goes on forever
Let all the tears and strife be gone
And we'll walk the road together

Think not of stopping in the strife
When the road goes on forever
Let joy and happiness be rife
And we'll walk the road together

Think not of hills and mountains high
When the road goes on forever
We'll lift our hearts up to the sky
And we'll walk the road together
